

JETHRO FRANE

Laguna, Philippines | +63 976 109 8047 | franejethro@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Information Technology professional with subject matter expertise in multimodal data annotation, dataset quality assurance, audio and video evaluation, and AI model assessment. Experienced in reviewing prompt adherence, reasoning quality, tool-use behavior, acoustic fidelity, temporal segmentation, and edge cases for AI training and benchmarking workflows. Brings strong IT fundamentals, AI-assisted development experience, QA testing, bug tracking, and cross-browser debugging skills.

CORE SKILLS

AI Data Annotation: Multimodal Data Annotation, Video Annotation, Audio Annotation, Music Annotation, Temporal Segmentation, Frame Labeling, Edge-Case Tagging, Dataset Auditing

AI Model Evaluation: Prompt Adherence, Reasoning Verification, Tool-Use Validation, Acoustic Evaluation, Model Benchmarking, Data Quality Assurance, Quality Assurance

Technical Foundations: AI-Assisted Development (Vibe Coding), ChatGPT, Google Gemini, Git, Jira, WordPress, HTML5, CSS3, JavaScript, PHP, MySQL

PROFESSIONAL EXPERIENCE

Beatpulse Labs | Remote

Video and Music Subject Matter Expert, Independent Contractor | April 2026 - September 2026

- Reviewed and labeled multimodal video datasets for computer vision model training, including action recognition, scene transitions, temporal segmentation, and edge-case documentation.
- Evaluated 900+ music tracks totaling 300+ audio hours for generative AI training, applying music theory to assess rhythm, melody, acoustic quality, and artifact patterns.
- Documented anomalies, ambiguous samples, and guideline edge cases to improve dataset consistency and downstream model evaluation.
- Consistently exceeded weekly throughput and quality benchmarks while maintaining high-precision compliance with production annotation guidelines.

Straive (SPi Technologies) | Remote

Audio Annotation Subject Matter Expert, Independent Contractor | March 2026 - July 2026

- Evaluated audio datasets for AI model alignment, prompt adherence, frequency artifacts, acoustic fidelity, and generative audio quality.
- Maintained an 80%+ accuracy rate under strict SLA requirements across high-volume annotation and review workflows.
- Provided structured feedback on generative audio tuning gaps, artifact suppression, and quality issues to support model improvement.

Valenin IT Services / Gencys Ecommerce Solutions | Cavite, Philippines

Web Developer Intern | January 2025 - April 2025

- Developed and optimized responsive e-commerce web pages using WordPress, Elementor, HTML5, CSS3, PHP, and JavaScript.
- Performed end-to-end QA testing, Jira-based bug tracking, and cross-browser debugging to improve UI consistency across mobile and desktop devices.
- Supported front-end updates, layout refinements, and issue resolution for client-facing web experiences.

EDUCATION

City College of Calamba | Calamba, Laguna

Bachelor of Science in Information Technology | Graduated June 2025
